Wet Weather and Report of Small Stocks With Mills Aid Bulls.

Advices from over one hundred millers located in ten States and two Territories, it was stated in the report, showed that stocks of wheat were generally below what they were a year ago. The report further claimed that no movement of consequence is probable until after seeding is completed.

MARKET PRESENTS SAME OLD THINGS

Searchers After Novelties in Any Line Had Hard Time Yesterday.

FINE BLACK BASS EXCEPTION TO RULE

Little Change Expected for Several Weeks and Buyers Must Be Contented.

With the exception of an especially fine lot of black bass from Utah lake, which has been decidedly scarce of late, the markets had little that was new to offer buyers yesterday. Frito bring their produce in, and hence the stalls do not present a very inviting appearance on that day. There were fruits and vegetables in plenty and of several varieties, but none that had not been on the market for some ime-not exactly the same fruit and vegetables, but the same varieties. Prices, too

were about the same varieties. Prices, too, were about the same that have been quoted for the past few days.

Dealers are complaining of a scarcity both in fish and oysters, the supply being entirely too small to fill the demand. There seems to be no special reason for this, and importers think it will not last more than a few days. A shipment of Olympia oysters from the Northwest was one of the arrivals of vector-day. These bivalves sell at \$3 a gallon, wholesale, and are consumed largely by the drug store trade. Quotations:

CONVINCED HE SLEPT

Somnambulist Eventually Proves Innocence of Thert.

LOGANSPORT, Ind. Sept. 15.—Walting for a train to his home, in Amboy, Ill. Harry Trough, aged 17, fell asleep, in the Panhandle depot. Snoring vigorously, he walked across the tracks to an Adams Express company's truck leaded with merchandise. He hauled the truck some distance, took a large package and, carreing it back into the station, sat down and placed it under his seat.

Express efficials found Trough still apparently asleep. Thinking this a pretense, they caused his arrest. Investigation by the Proscouting Attorney satisfied the company Trough had been actually asleep throughout the transaction and the charge of the theft was dismissed.

Affidavits from friends and relatives proved him a semnambulist for years. LOGANSPORT, Ind., Sept. 15 - Walting

Stock Market Letters.

Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters in the stock market.

Marshall Spader & Co., New York, say. "While we firmly believe that the generally favorable conditions will be reflected in higher prices later on, we think the money market is not in shape at present to permit any decided advance. For the immediate future we think purchases can safely be made on reactions, but we acvise profit-taking on the buiges."

Hutton, New York says: "The market was purely professional, but retained a strong undertone. Notwithstanding the large loss of eash by banks, money did not rule above 4 per cent. There has been no pressure to sell stocks any time during the day. If the market is held on an even basis for the next few weeks there is no doubt but that we will see a resumption of buillish activity which will make record prices throughout the list. We would advise buying the stocks named in previous letters on any recessions."

Logan & Bryan, New York, say: "Some headway was made by the bears in depressing the general list on an advance in the money rate, but the confident belief that high high rates here will attract gold from the other side tends to offset largely active call rates at this time. The Gould stocks have again been active, led by Wabbash. The market closed irregular, but with a firm tone and it continues to look like a trading affair."

T. A. McIntyre & Co., New York, say: "Efforts to buil the market had to be abandoned owing to a large amount of celling of loans by banks in order to offset the loss of nearly \$10,000,000 which they have sustained during the last week, and to prevent tomorrow's bank statement from showing a deficit in the surplus reserve they are now carrying on all deposits over legal requirements. There is no prospect of any resumption of buil movement until the present tight conditions prevailing in the money market may have been relieved. We would advise purchases on weak spots with the idea of ta

NO CESSATION IN TRADE ACTIVITY

Nearly All Lines Continue Remarkably Active, Says Bradstreet's.

FALL DISTRIBUTION IS IN GREAT VOLUME

Gross Earnings of Railroads Are Largely in Excess of a Year Ago.

NEW YORK, Sept. 15 .- Bradstreet's to-

morrow will sav: morrow will say:

'Trade and industry continue remarkably active in nearly all lines. Fall distribution is in full swing, and in portions of the West is of unprecedented volume. Interior merchants are still greatly in evidence in many primary markets, three-fourths of the corn crop is out of danger of frost, iron and steel are in exceptionally good demand, with outputs heavily sold ahead and prices tending upward, and building and building material are apparently as active as at any preceding period this year.

Labor Well Employed.

'Labor Well Employed.

'Labor seems to be very well employed, though a few strikes, notably in the printing and building trades, disturb the otherwise very quiet appearance of the industrial situation. Collections generally are good for this season of the year, despite the fact that retail trade in the agricultural regions is still retarded by active farming operations.

Railway Business Large.

"Business being handled by the railways is of large proportions, despite the lighter than expected grain movement, due to farmers indisposition to take current prices for their products. Gross earnings for August were 5 per cent in excess of a year ago, when the present wave of activity first manifested Itself, marking a continuing progressive gain for that

CONFIDENCE IS UNWEAKENED.

Industrial Disposition to Extend Plans Into Future.

NEW YORK, Sent. 15 -A. G. Dun's weekly review of trade tomorrow will say weekly review of trade tomorrow will say "Industrial, commercial and agricultural progress continues satisfactorily. Nothing has occurred to weaken confidence, the disposition being to extend plans further into the future, and many plants have their facilities engaged well into next year. As demand broadens, there is a natural tendency to enlarge capacity, which adds to the already exceptional structural activity.

Weather Conditions Favorable.

Weather Conditions Favorable.

"Thus far the weather has not been cold chough to harm the crops that remain to be harvested, and another week of favorable conditions should assure an unprecedented yield of corn. Several settlements maintain labor disputes at the minimum, and mercantile collections continue

"A few complaints of inadequate transporting facilities from manufacturing centers are attributed to the requirements of grain moving. Railway earnings thus far reported for September were 3.7 per centlarger than last year, while foreign commerce at this port for the last week showed gains of \$2.364.180 in values of exports and \$37.851 in imports, as compared with 1994.

Gain in Exports. "The official report of exports of staple products from all ports of the United States in August exhibited a gain of \$18,-\$23,961 over the same month last year, or more than 5 per cent.

"Large exports of packer's products, but on heavy Texas steers small concessions were made, although the limited offerings in others sections of the market maintained the average prices at the highest point.
